SPECIAL CASE CONFERENCE

NAME: Valerie Young  
CON#: 090-0032  
UNIT: 314  
DATE: 11-5-04

SUMMARY OF MEETING

Reason for conference: incident of 11-3-04

DISCUSSION:

The met to discuss an incident involving Valerie Young. Upon return from program, Valerie was observed with her 2<sup>nd</sup> and 3<sup>rd</sup> digits of her left hand swollen and discolored. She was sent out for evaluation to rule out fracture, which was negative. Valerie was diagnosed with a soft tissue contusion and the fingers were wrapped up. The physician stated that she will be re-evaluated as needed. Staff report that Valerie swings her hands (possibly that's how she sustained the injury?) and the psychologist will place a baseline in for that behavior. Valerie will also be placed on 15 minute checks.

RECOMMENDATIONS:

1. Baseline for swinging hands to be implemented.
2. 15 minute checks.
3. Hands to be re-evaluated as needed by the physician.
